Detail-oriented UI/UX designer with almost 3 years of hands-on experience in creating intuitive, functional and enjoyable user interfaces and digital products that effectively address user needs.

PROFESSIONAL EXPERIENCE

Athyna — UX/UI Designer

December 2021 to Present

- Conceptualized and designed the MVP for a global employment platform, driving the transition from a service-based business to a successful SaaS model. Consistently enhancing it with innovative features.
- Led UX and UI design efforts for diverse platforms, including company websites, web apps, Chrome extension, and creative materials such as social media posts, newsletter templates, and digital presentation assets.
- Maintained product quality and consistency through rigorous testing and coordination with product managers and developers.
- Ensured daily design system maintenance to guarantee seamless and cohesive user experiences.
- Effectively optimized the outbound system and enhanced lead generation through the strategic design of sub-brands and landing pages.

Freelance — UX/UI Designer

July 2021 to Present

Engaged in diverse projects and collaborated with various clients to deliver impactful design solutions, including:

- Designed a streamlined billing and payments system for Virtual Latinos, automating financial transactions and calculations for virtual assistants and client charges. Achieved heightened efficiency, reducing manual efforts, and eliminating recurring errors.
- Redesigned the brand identity and website for startup Defy-Hi, elevating their online presence by aligning visual elements with company values and enhancing overall brand perception.
- Crafted a personalized website for Coderhouse's client, tailoring the design to meet specific brand and user requirements, resulting in an aesthetically pleasing and functional online presence.
- Transformed G-Full's e-commerce website with a user-centric design approach, optimizing the online shopping experience and driving increased user engagement and conversion rates.

University of Buenos Aires — Design Teaching Assistant

January 2018 to December 2018

Supported professors in the final level of the fashion design degree by reviewing and correcting students' assignments and projects.
