

UI / UX Designer

Victoria Zheng

I am a UX/UI Designer with experience in digital product design and graphic design. I've graduated from the University of Buenos Aires as a Fashion Designer but I found my true passion in the world of UX and UI Design. I admire how thoughtful design has the power to change our lives and I have a great interest in designing and investigating aspects that could improve user experiences. I am highly goal-oriented, always looking for improvement and well adaptive to a constantly changing environment.

I have experience designing apps, websites and webapps. I can solve problems, create functional experiences and digital interfaces focus on user needs.

Work Experience

- Dec 2021 – Present
 Athyna
UX/UI Designer
 - Responsible for UX and UI design for websites and web apps (Athyna and Nui), and creatives like social media posts and digital assets for pitch decks.
 - Was in charge of the maintenance of the design system, the creation of user interfaces that align with the product's overall vision and the execution of wireframes, high-fidelity designs and prototypes following design best practice.
 - Worked closely with product managers and developers to ensure quality and consistency are maintained across all products.
- Ago 2021 – Present
 Freelance
UX/UI Designer
 - Responsible for designing websites and applications, responsible for researching and user testing to create a better design and user experience for the clients that are using it.
 - Worked on different kinds of projects which include clients like G-Full S.A., Coderhouse, etc.
 - Defined the functional flows and the interface design through different tools such as information architecture, user flow, wireframes, mockups, mood boards, etc.
- Ago 2016 – Nov 2021
 ICBC Argentina
Risk Management Analyst, Bilingual Account Officer
 - Provided assistance with tasks related to Operational Risk Management, Anti-Money Laundering, Compliance and Fraud.
 - Handled a variety of banking service inquiries, solving client problems and providing technical support.
 - Identification of client needs in order to offer/suggest products and services. Following up and keeping in touch with potential clients.
 - Provided high quality service through efficient and effective client service.
- Feb 2018 – Dic 2018
 University of Buenos Aires
Design Teaching Assistant
 - Assisted the professors of the last level of the fashion design degree with the correction of students' homeworks and projects.
 - I was part of the teaching team in the subjects Fashion Project IV and Final Degree Project.

Education

- 2022
 Coderhouse
Web Development
 - Learned to create a website, starting from a prototype, using HTML and CSS.
 - Learned the tools to maximize the website, implementing code versioning practices with Git, and preprocessors such as SASS.
- 2021
 Google – Coursera
UX Design Professional Certificate
 - Rigorous training designed for entry-level job readiness.
 - Topics included UX research fundamentals, inclusive design, wireframes and high-fidelity prototypes. I developed 3 hands-on projects using tools like Figma and Adobe XD.
- 2021 – 2022
 Coderhouse
UX/UI Design (var. courses)
 - Courses I have taken: UX/UI Design, Advanced UX/UI Design, UI Design, Prototyping.
 - Finished all courses in the ranking of the Top 10 for good performance.
- 2012 – 2017
 University of Buenos Aires
Bachelor in Fashion Design
 - Academic degree. Grade point average: 8.50
 - I was chosen to be the standard-bearer of the national flag at the diploma ceremony, at the UBA's design faculty FADU, due to high GPA.
